

# THALLAPALLY BHARATH KUMAR

Computer Science & Engineering | Software Development | AI/ML

Hyderabad, India | +91 9705656974 | bharathkumarthallapalli@gmail.com

github.com/BharathThallapally | linkedin.com/in/thallapally-bharath-kumar-974521358

## PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience in Python, web development, AI/ML, RAG, databases, and full-stack application development. Built academic and hackathon projects using React, Node.js, Express.js, MongoDB, Python, and SQL. Team Lead in the Quantum Arena hackathon with experience in project implementation and team coordination. Seeking internship and entry-level opportunities in software development, Python, AI/ML, and full-stack development.

## EDUCATION

### B.Tech in Computer Science and Engineering

Guru Nanak Institutions Technical Campus

Intermediate (MPC)

93.4%

*Expected 2028*

**CGPA: 8.1/10 | 3rd Year**

*2024*

## TECHNICAL SKILLS

**Programming:** C, Java, Python, JavaScript, SQL    **Web:** HTML, CSS, React, Node.js, Express.js, REST APIs

**AI/ML:** Artificial Intelligence, Machine Learning, RAG, Vector Databases    **Databases:** MongoDB, SQL, DBMS

**Tools:** Git, GitHub, VS Code, Postman    **Other:** IoT, Problem Solving

## EXPERIENCE

### Web Developer Intern — Proxenix

*25 Oct 2025 – 25 Dec 2025*

- Worked with HTML, CSS, and JavaScript to strengthen frontend web development skills.
- Explored web development workflows, development tools, and commonly used frontend technologies.
- Gained practical exposure to frontend implementation and the software development process.

## SELECTED PROJECTS

### Medical Inventory & Medicine Expiry Management System

*Quantum Arena | Team Lead*

- Developed the frontend using React and contributed to backend development using Node.js and Express.js.
- Used MongoDB for data management and contributed to integrating RAG-based functionality.
- Led the Syntax Squad team, coordinated development activities, and contributed to project implementation.

**Technologies:** React, Node.js, Express.js, MongoDB, Python, RAG

### Smart Traffic Control System Using AI & IoT

*Engineering Prototype Expo*

- Developed an AI and IoT-based solution focused on intelligent traffic management and improving traffic flow.
- Presented the project at the Engineering Prototype Expo.

**Technologies:** AI, IoT, Python

### AI Chatbot

*Python / AI*

- Developed a Python-based AI chatbot concept for automated responses to user queries using conversational AI principles.

## HACKATHONS & ACHIEVEMENTS

- **Quantum Arena:** Team Lead, Syntax Squad; developed the Medical Inventory & Medicine Expiry Management System.
- **Engineering Prototype Expo:** Participated with the Smart Traffic Control System Using AI & IoT.
- **Python Code Debugging:** Participated at Guru Nanak Institutions Technical Campus.

## CERTIFICATIONS & PARTICIPATION

- **Web Development Internship Certificate — Proxenix** | 25 Oct 2025 – 25 Dec 2025
- **AI Bootcamp** — Guru Nanak Institutions Technical Campus
- **Python Code Debugging** — Guru Nanak Institutions Technical Campus
- **Prortozone** — Guru Nanak Institutions Technical Campus
- **Python Programming Certification | AI for Everyone | IoT Fundamentals** — Networking Academy
