

THALLAPALLY BHARATH KUMAR

Computer Science & Engineering | AI/ML | Software Development

Hyderabad, India | +91 9876654312 | bharathkumarthallapalli@gmail.com
github.com/BharathThallapally | linkedin.com/in/thallapally-bharath-kumar-974521358

PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on exposure to web development, AI/ML, RAG, databases, and full-stack application development. Built academic and hackathon projects using Python, React, Node.js, Express.js, and MongoDB. Team Lead in Quantum Arena, seeking internship and entry-level opportunities in software development, AI/ML, Python, and full-stack development.

EDUCATION

B.Tech in Computer Science and Engineering

Guru Nanak Institutions Technical Campus

Intermediate (MPC): 93.4%

Expected 2028
CGPA: 8.1/10 | 3rd Year
2024

TECHNICAL SKILLS

Programming: C, Java, Python, JavaScript, SQL **Web:** HTML, CSS, React, Node.js, Express.js, REST APIs

AI/ML: Artificial Intelligence, Machine Learning, RAG, Vector Databases

Databases: MongoDB, SQL, DBMS **Tools:** Git, GitHub, VS Code, Postman **Other:** IoT, Problem Solving

EXPERIENCE

Web Developer Intern — Proxenix

25 Oct 2025 – 25 Dec 2025

- Explored web development concepts, workflows, tools, and technologies.
- Worked with HTML, CSS, and JavaScript to strengthen frontend development fundamentals.

SELECTED PROJECTS

Medical Inventory & Medicine Expiry Management System

Quantum Arena | Team Lead

- Developed the frontend using React and contributed to backend implementation using Node.js and Express.js.
- Worked with MongoDB for data management and contributed to RAG-based functionality.
- Led the Syntax Squard team and coordinated development activities during the hackathon.

Technologies: Python, React, Node.js, Express.js, MongoDB, RAG

Smart Traffic Control System Using AI & IoT

Engineering Prototype Expo

- Developed an AI and IoT-based project concept for intelligent traffic management and improved traffic flow.
- Participated in the Engineering Prototype Expo with the project.

Technologies: AI, IoT, Python

AI Chatbot

Python | AI

- Developed an AI-based chatbot concept for automated responses to user queries.

HACKATHONS & ACHIEVEMENTS

- Quantum Arena:** Team Lead, Syntax Squard; developed the Medical Inventory & Medicine Expiry Management System.
- Engineering Prototype Expo:** Participated with the Smart Traffic Control System Using AI & IoT.
- CODE DEBUGGING (Python):** Participated at Guru Nanak Institutions Technical Campus.

CERTIFICATIONS & PARTICIPATION

- Web Development Internship Certificate — Proxenix** | 25 Oct 2025 – 25 Dec 2025
- AI Bootcamp | Python Code Debugging | Prortozone** — Guru Nanak Institutions Technical Campus
- Python Programming Certification | AI for Everyone | IoT Fundamentals** — Networking Academy
